

Chew Chew

We know you want the best for your dog, Naoko is a Japanese Pet Nutrition Expert and Pet care Advisor who provides organic and natural Japanese based recipes that are healthy and nutritious tasty meals.

Chew Chew uses only organic meat for your dogs as they have such a small body the added hormones can upset their stomachs. Our chickens are from Enviroganic Farms and our meat is purchased from Cleavers Organic Butchers and fish from Pymont Fish Markets.

The meals are 50% meat, 25% grain and 25% Chew Chew vege`s which is a special mix to help the bowel to function properly, as the bowel is the most important place to get the nutrition into the body. (We can adjust the grains accordingly, so please ask our staff we want your pet to enjoy their meal and also mum/dad to get enjoyment out of watching your furry babies enjoying themselves).
